

Birth rate–based categories: spatial grain = 1 x 1

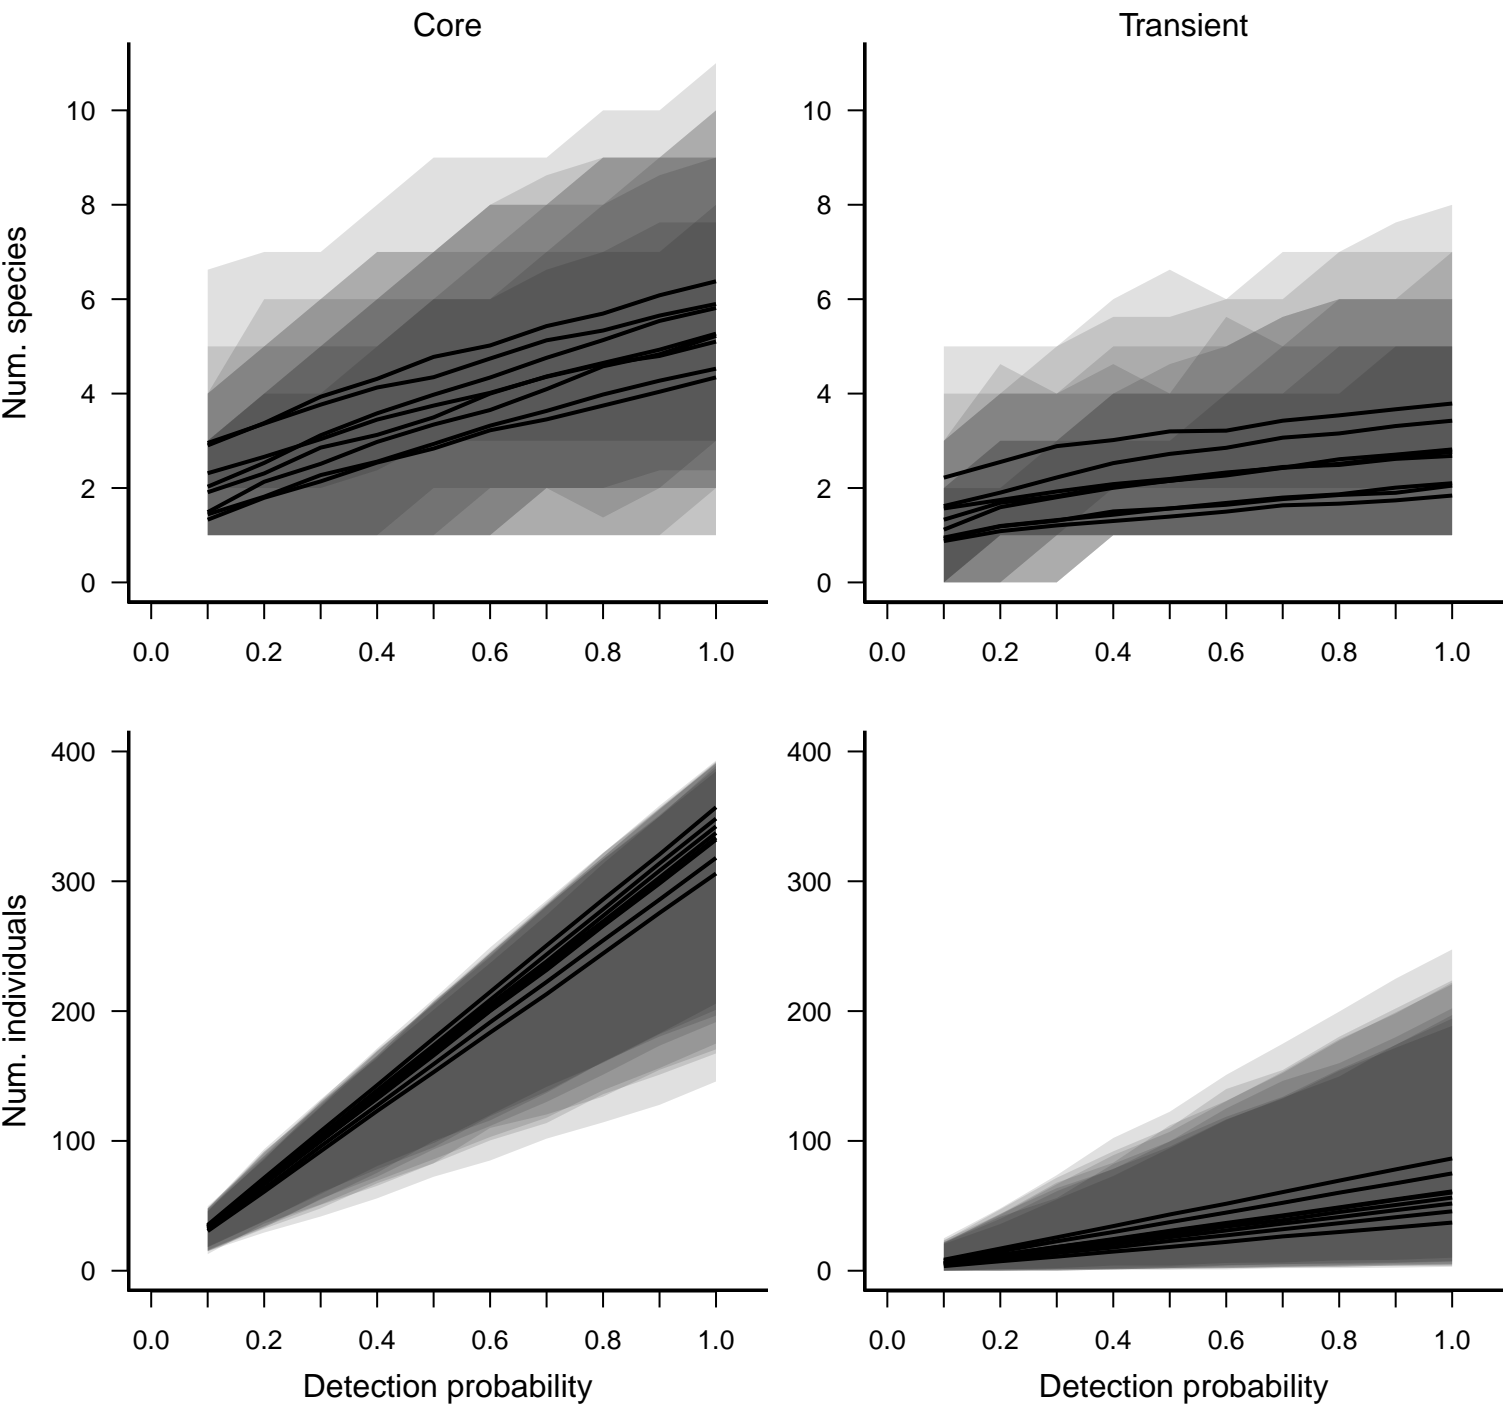

Temporal occupancy-based categories: spatial grain = 1 x 1

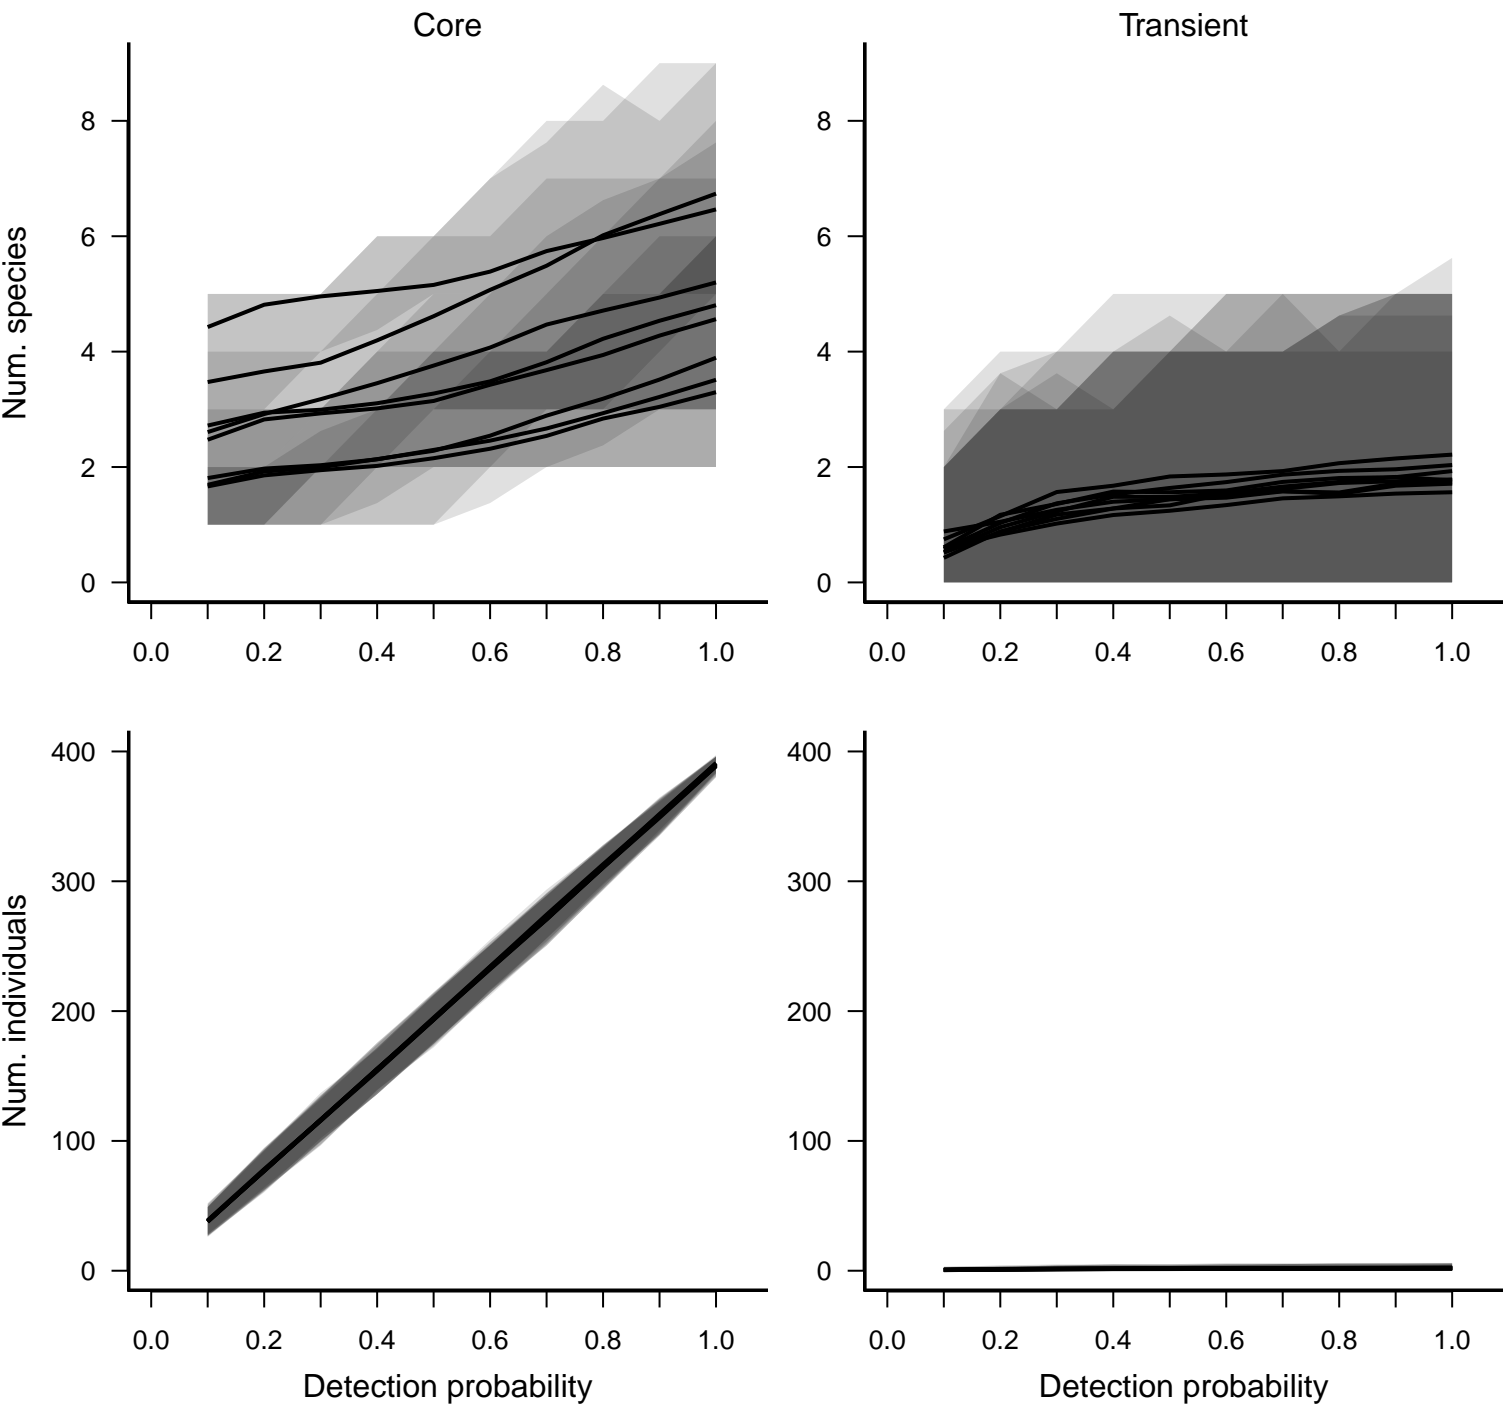

Cross-classification: spatial grain = 1 x 1

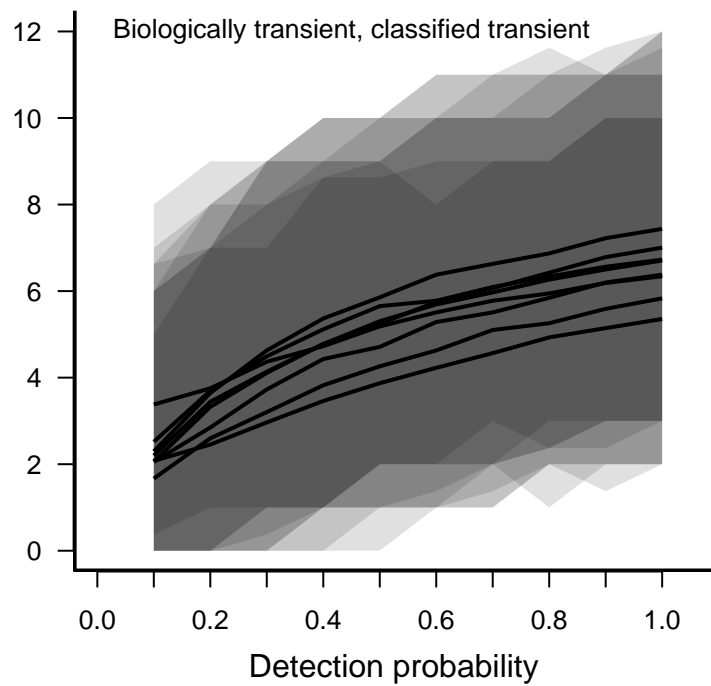

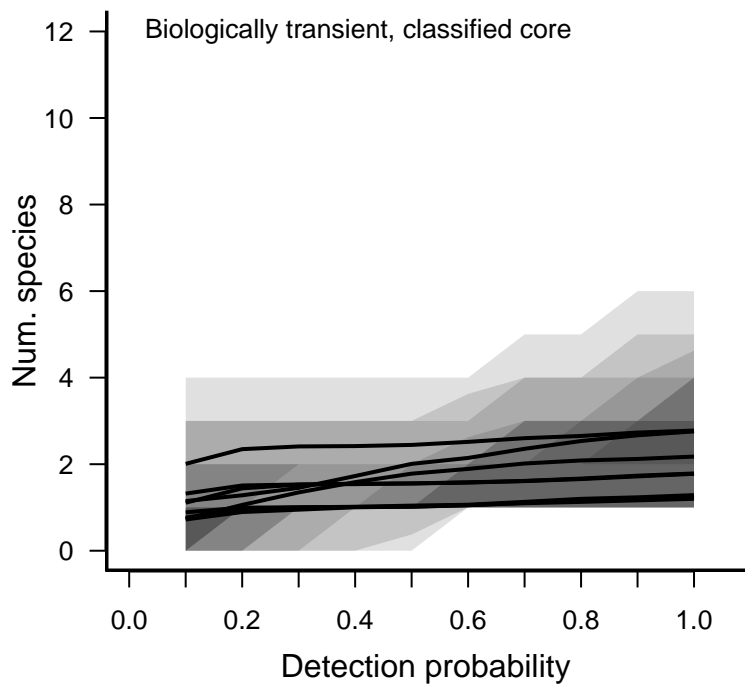

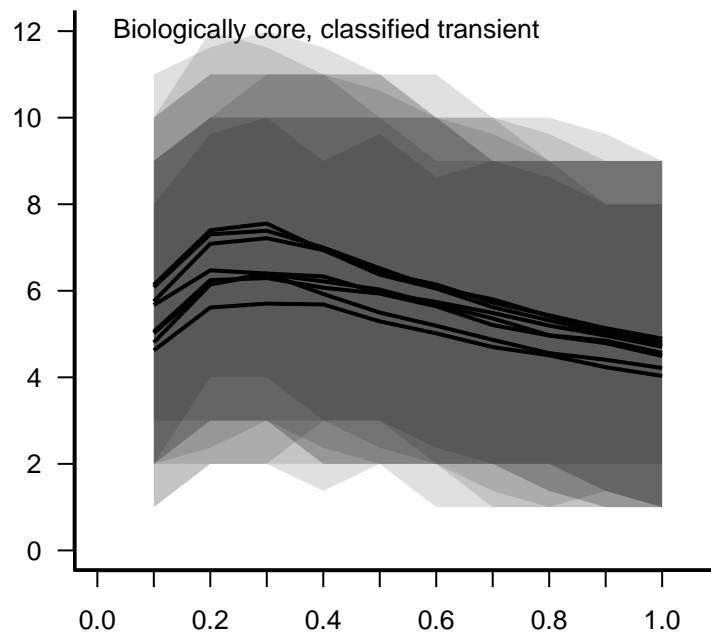

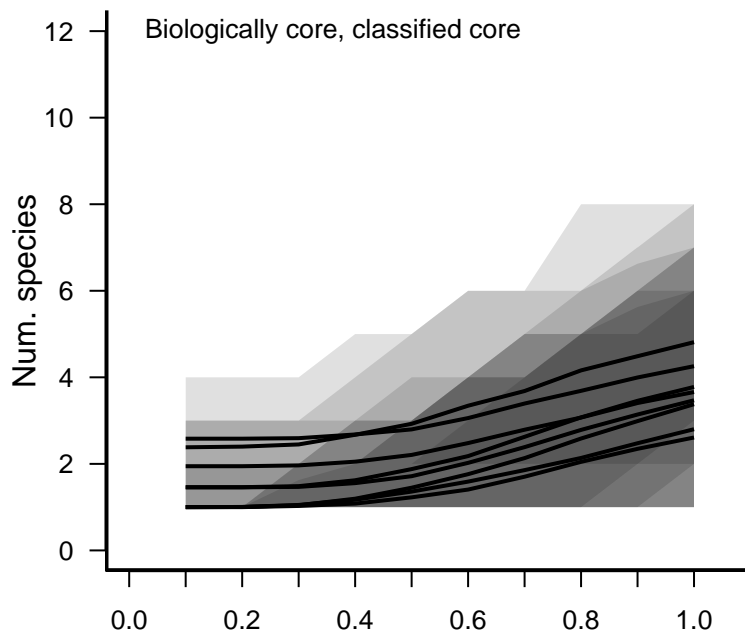

Birth rate–based categories: spatial grain = 2 x 2

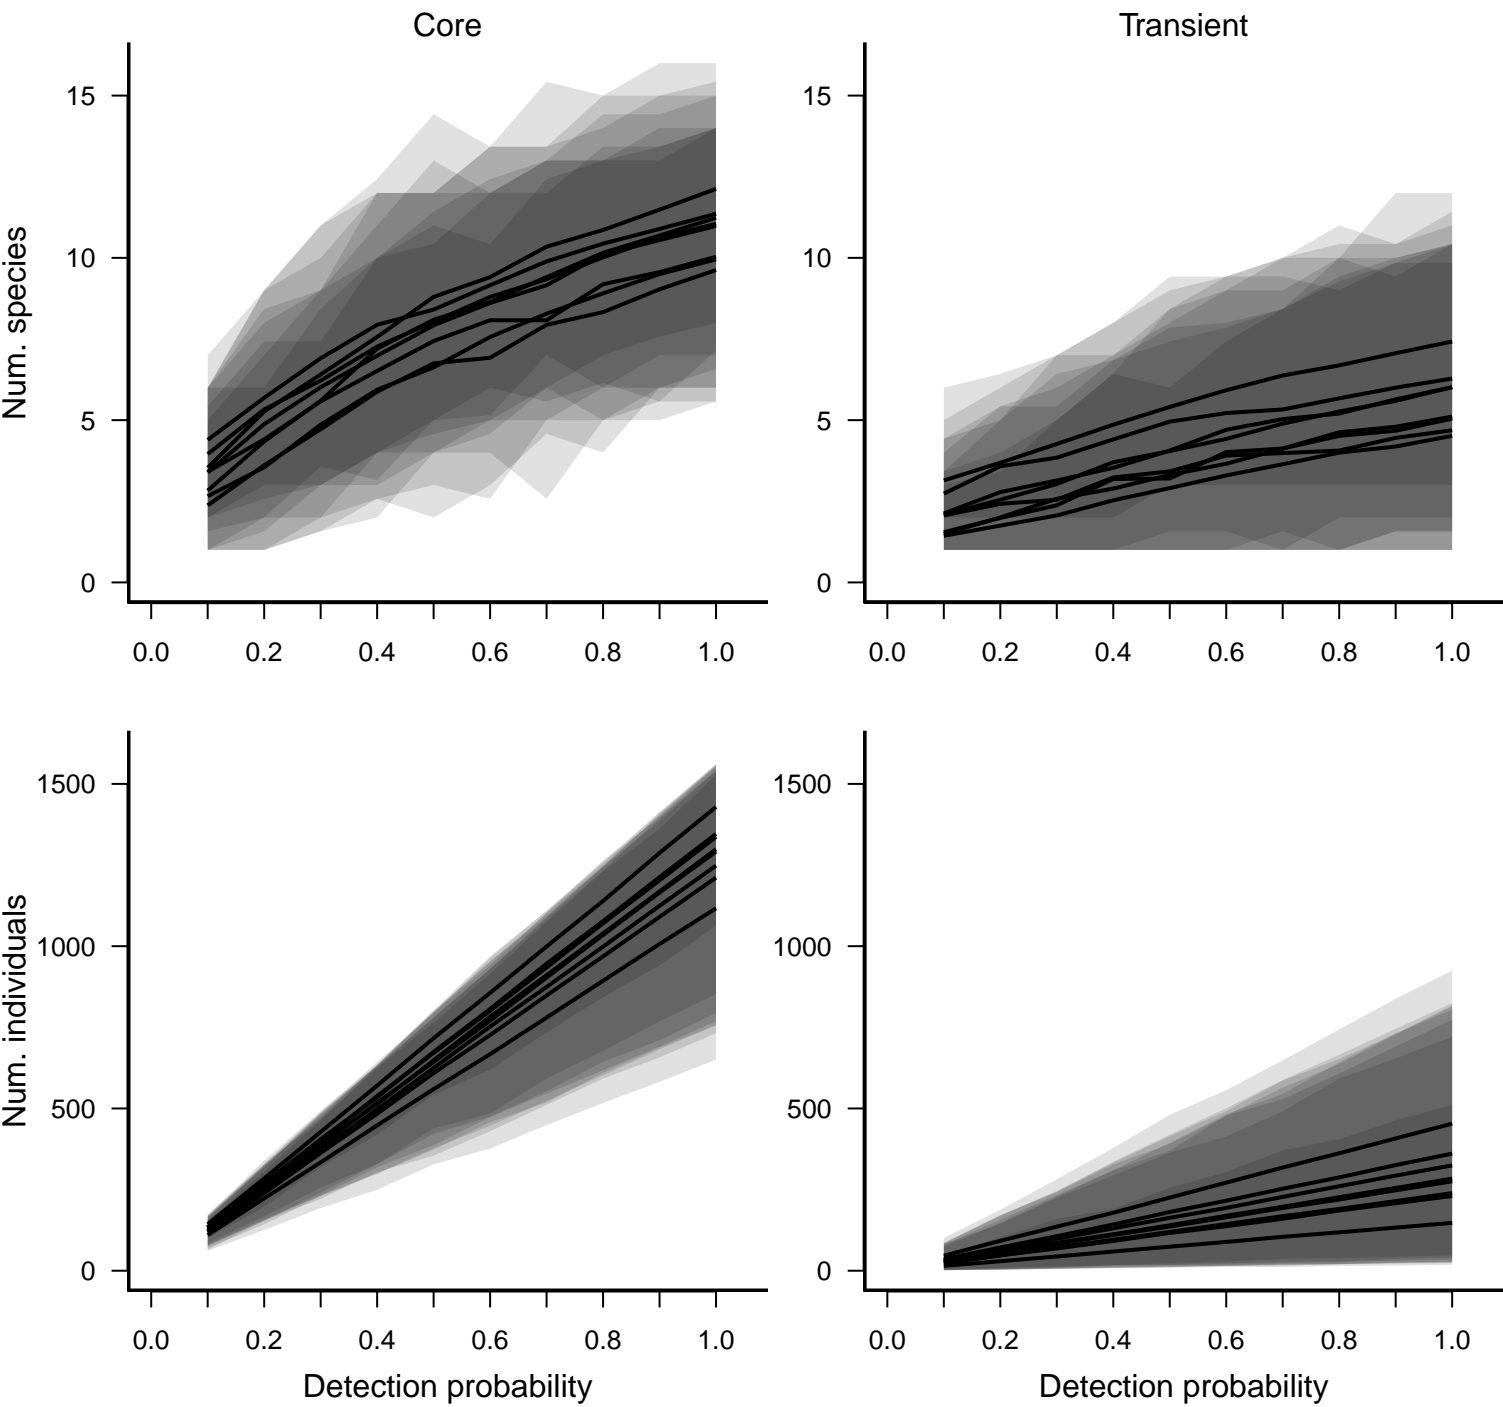

Temporal occupancy-based categories: spatial grain = 2 x 2

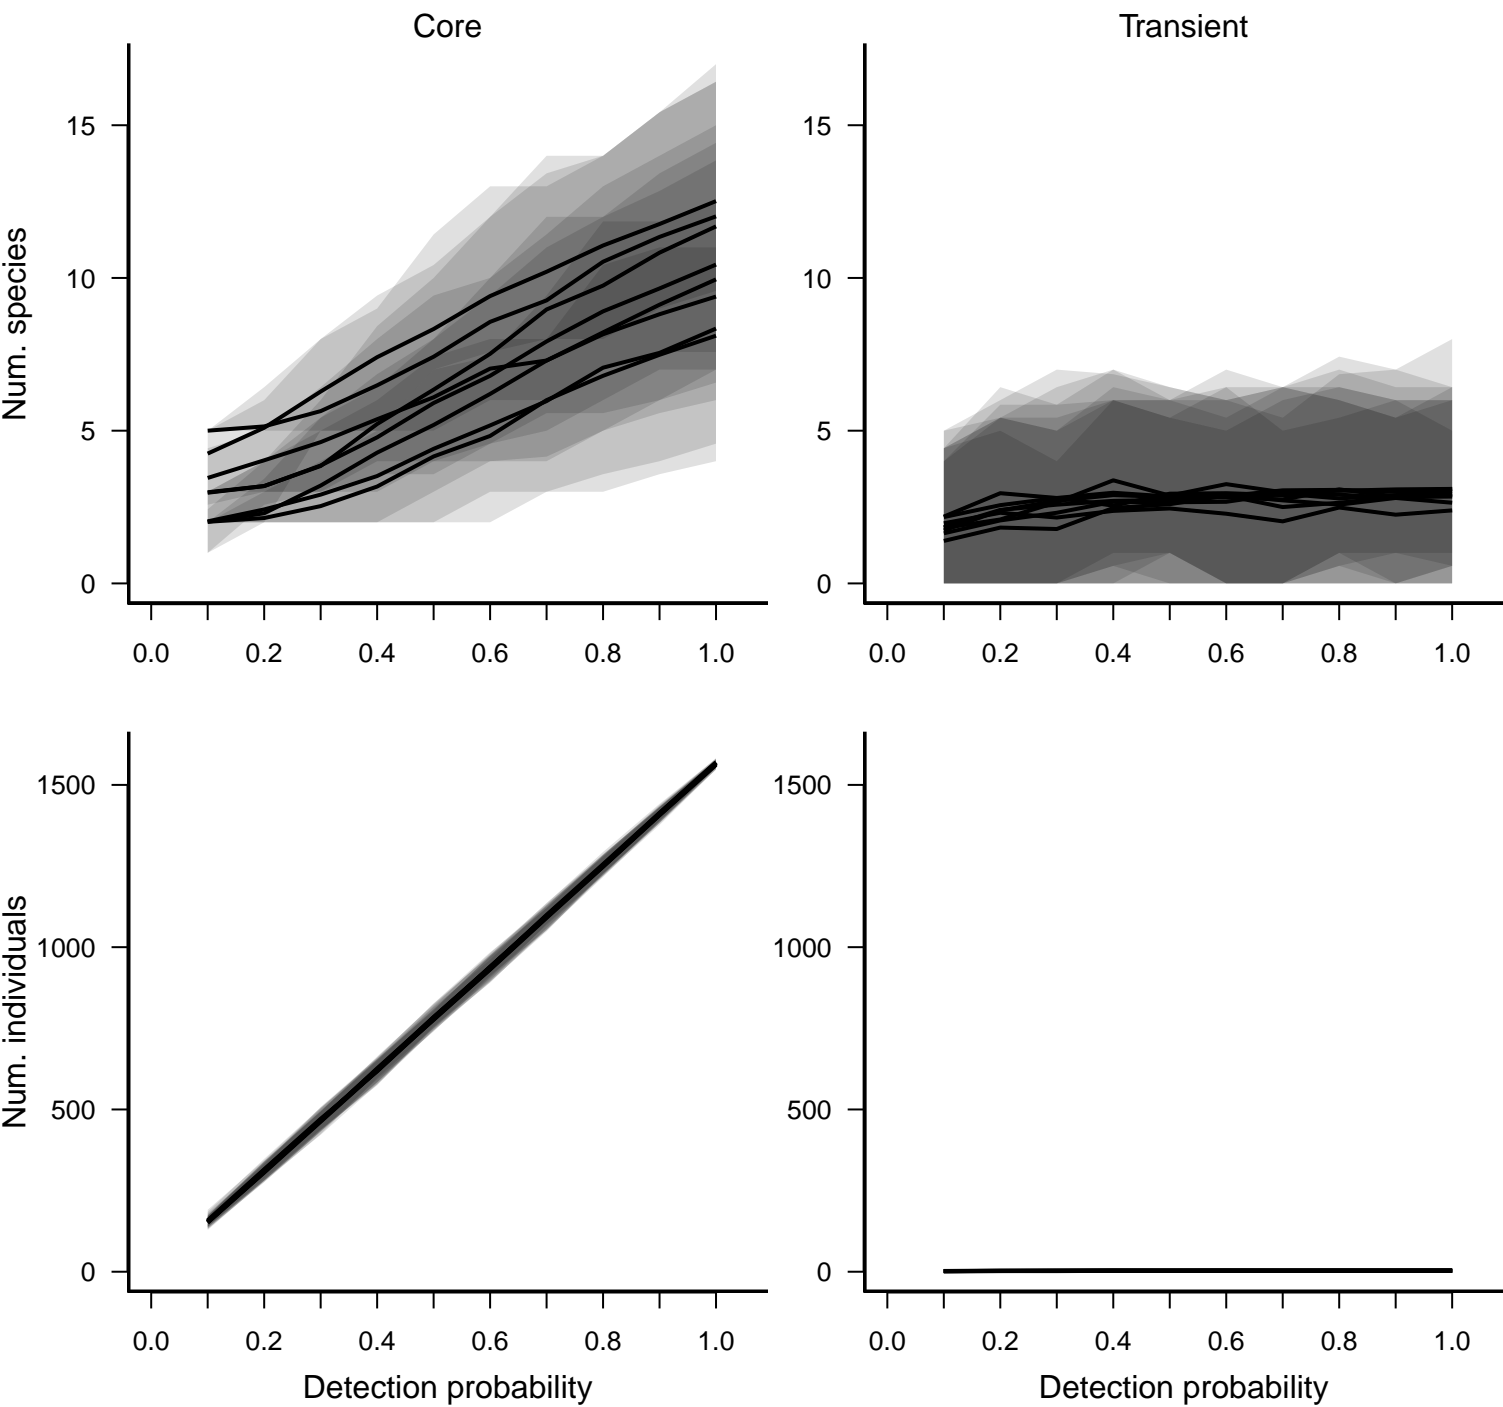

Cross-classification: spatial grain = 2 x 2

Birth rate–based categories: spatial grain = 4 x 4

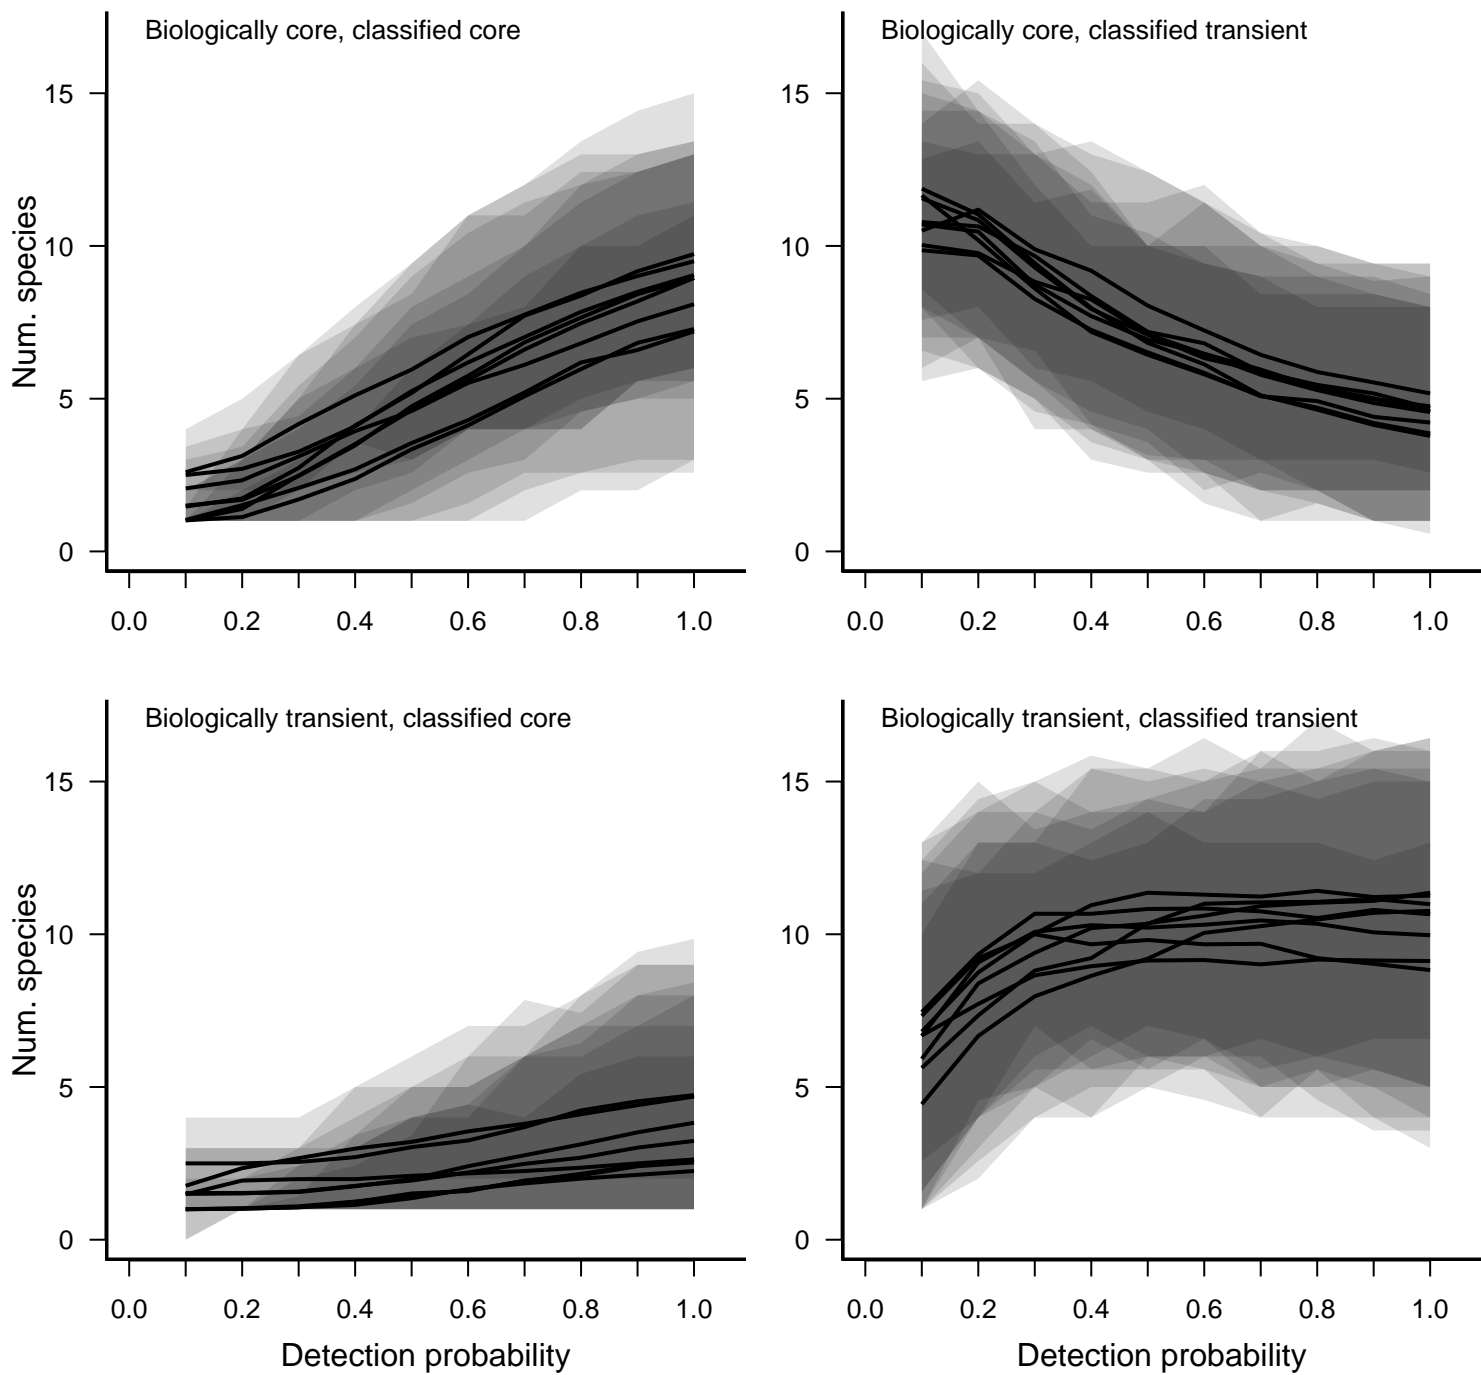

Temporal occupancy-based categories: spatial grain = 4 x 4

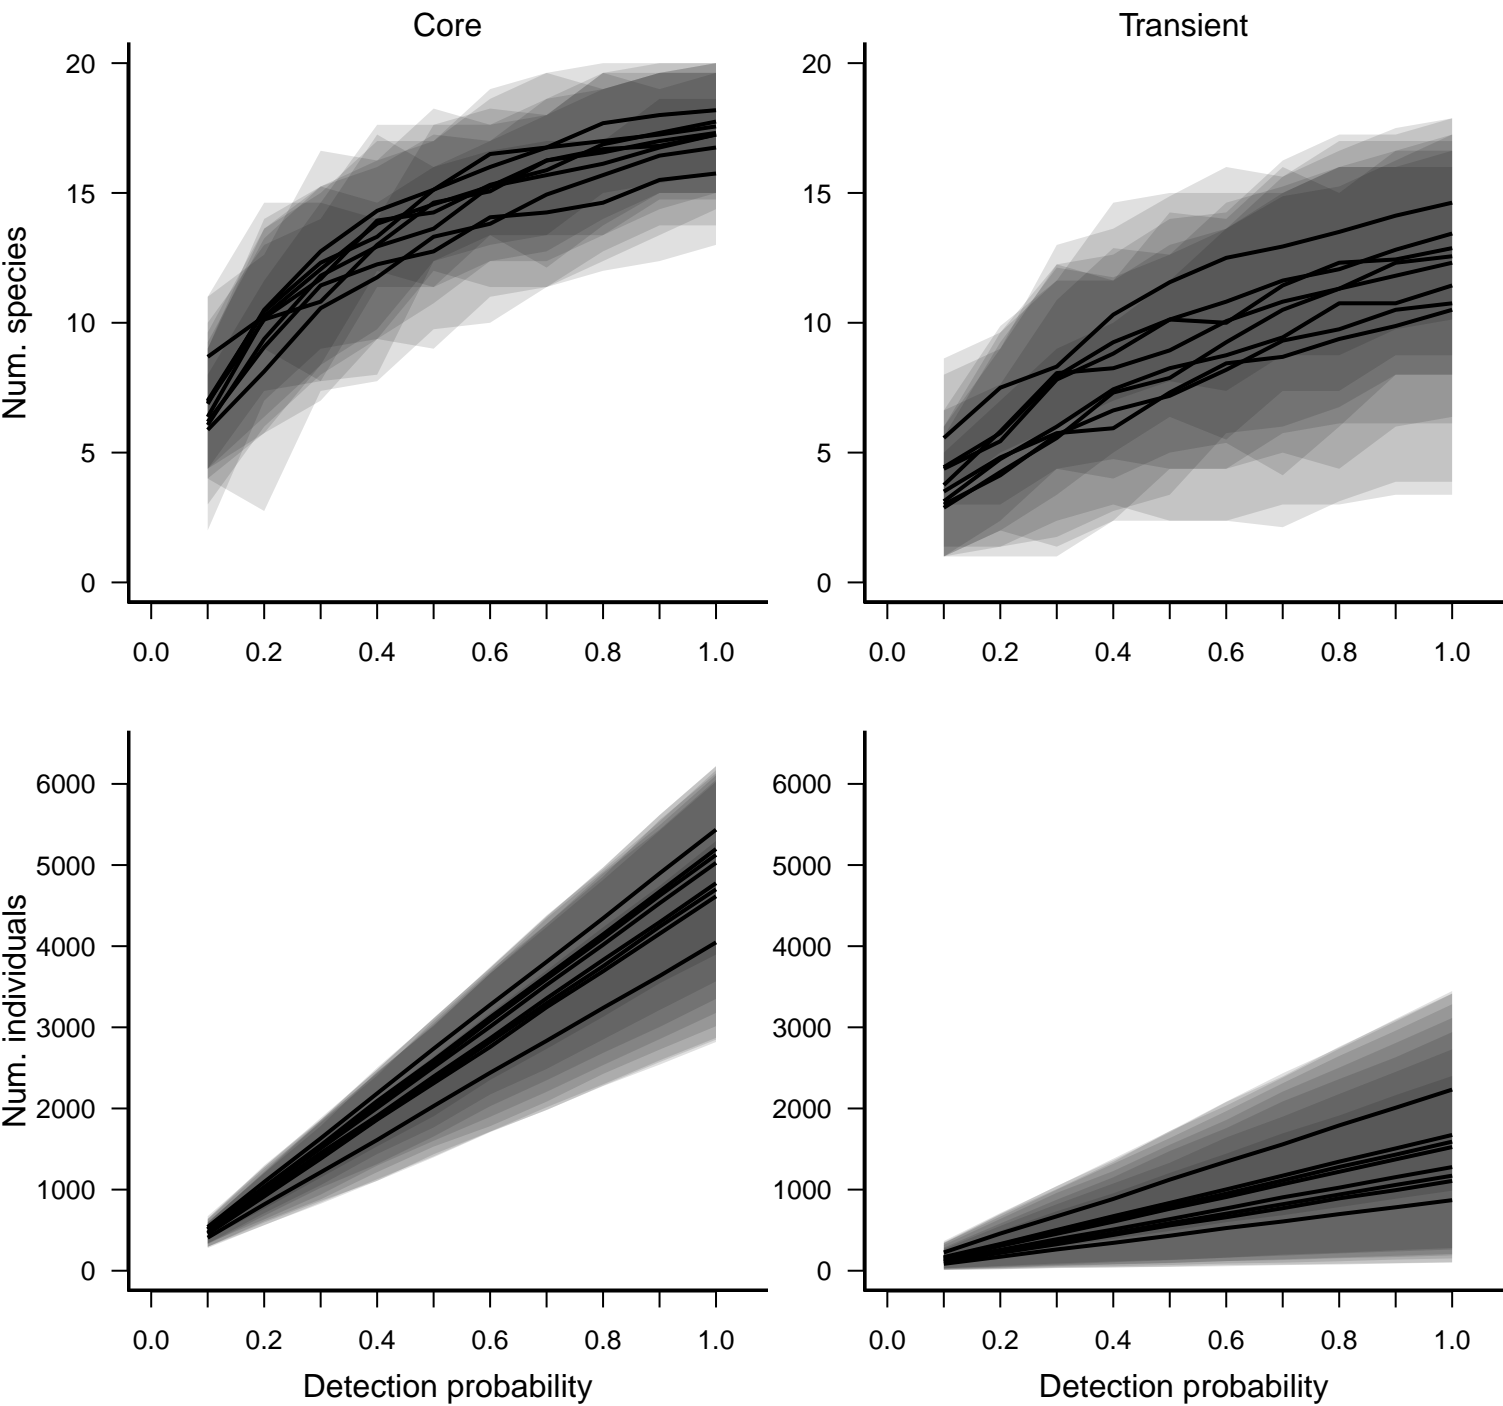

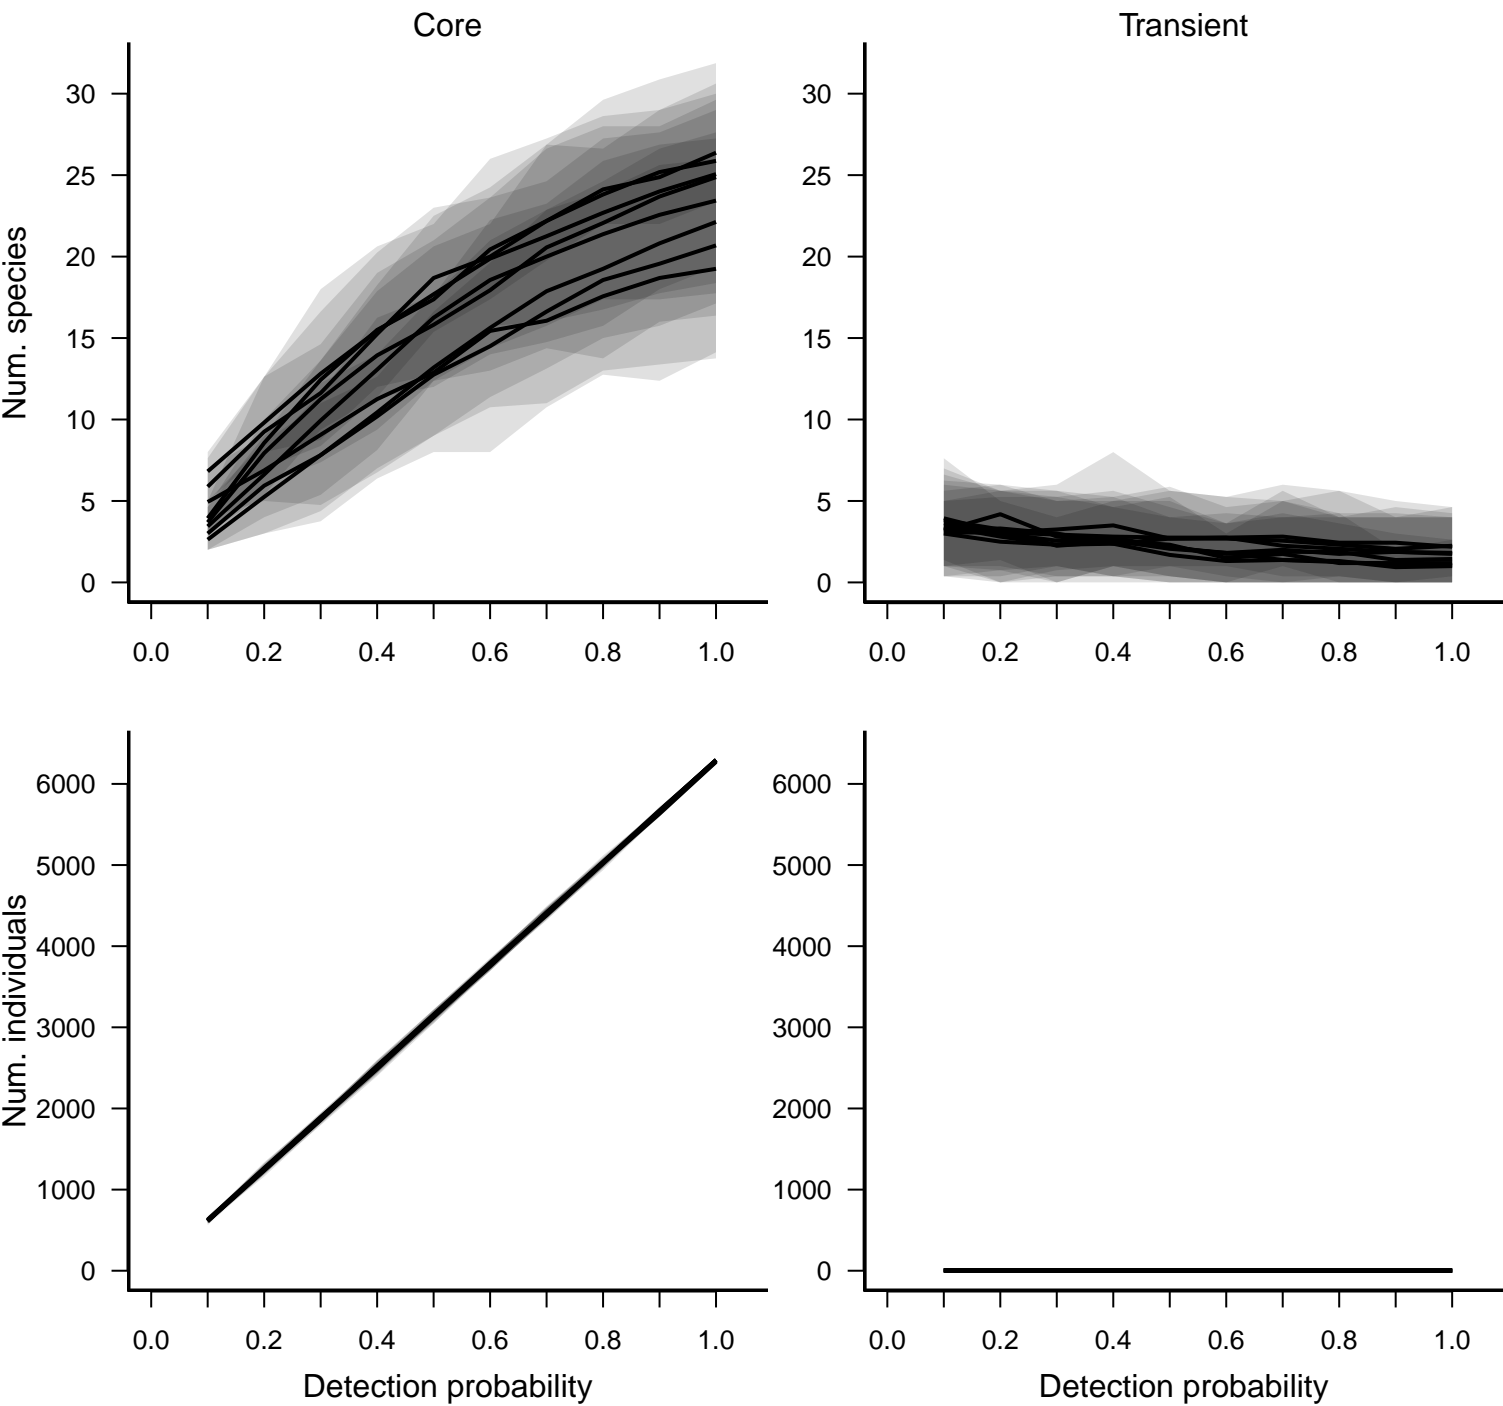

Cross-classification: spatial grain = 4 x 4

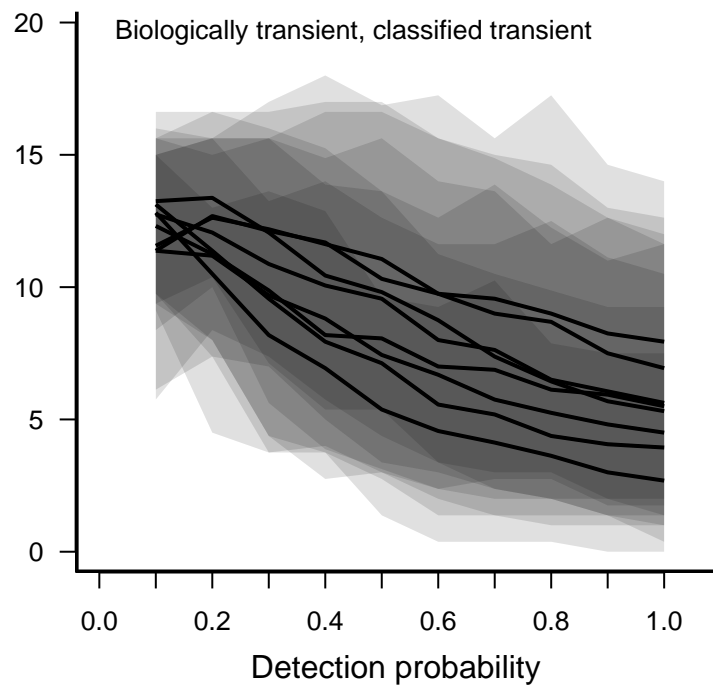

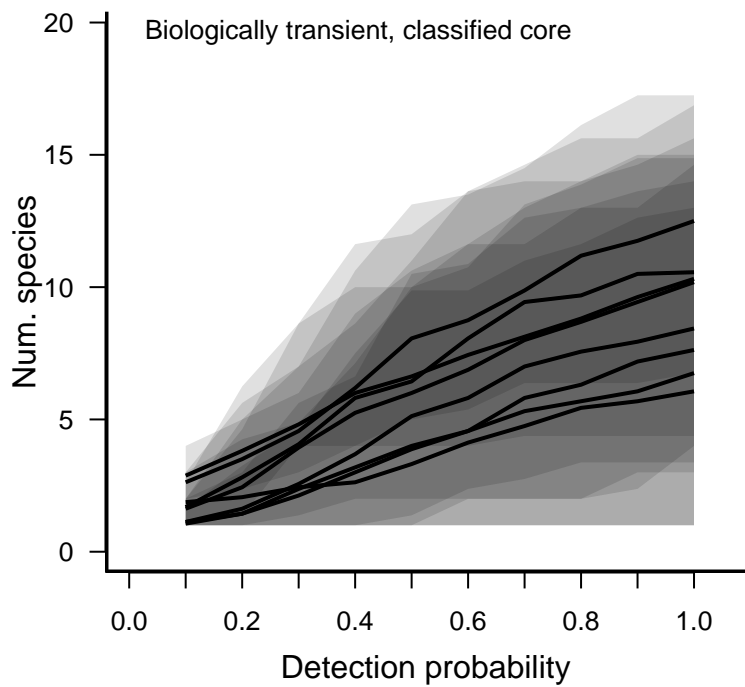

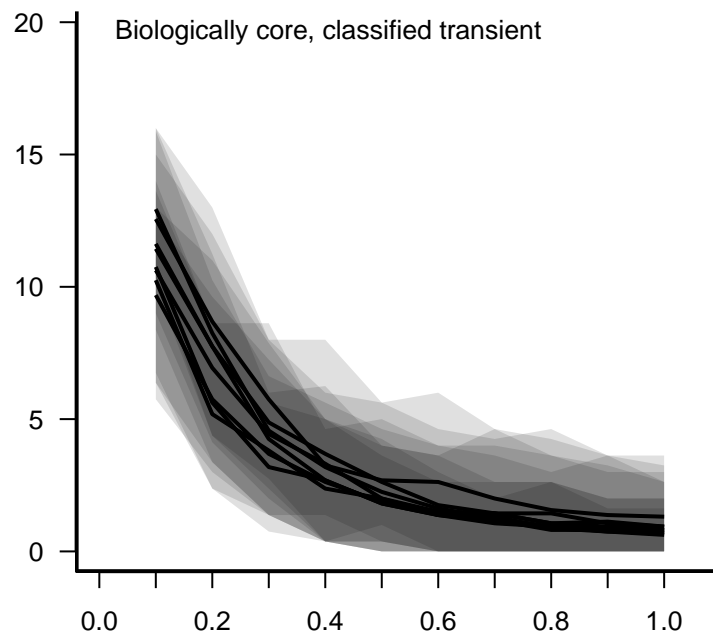

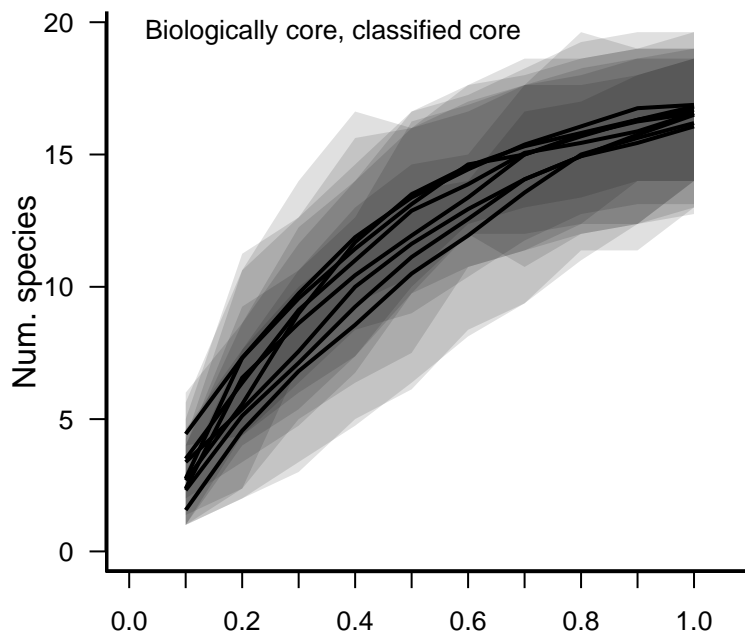

Birth rate-based categories: spatial grain = 8 x 8

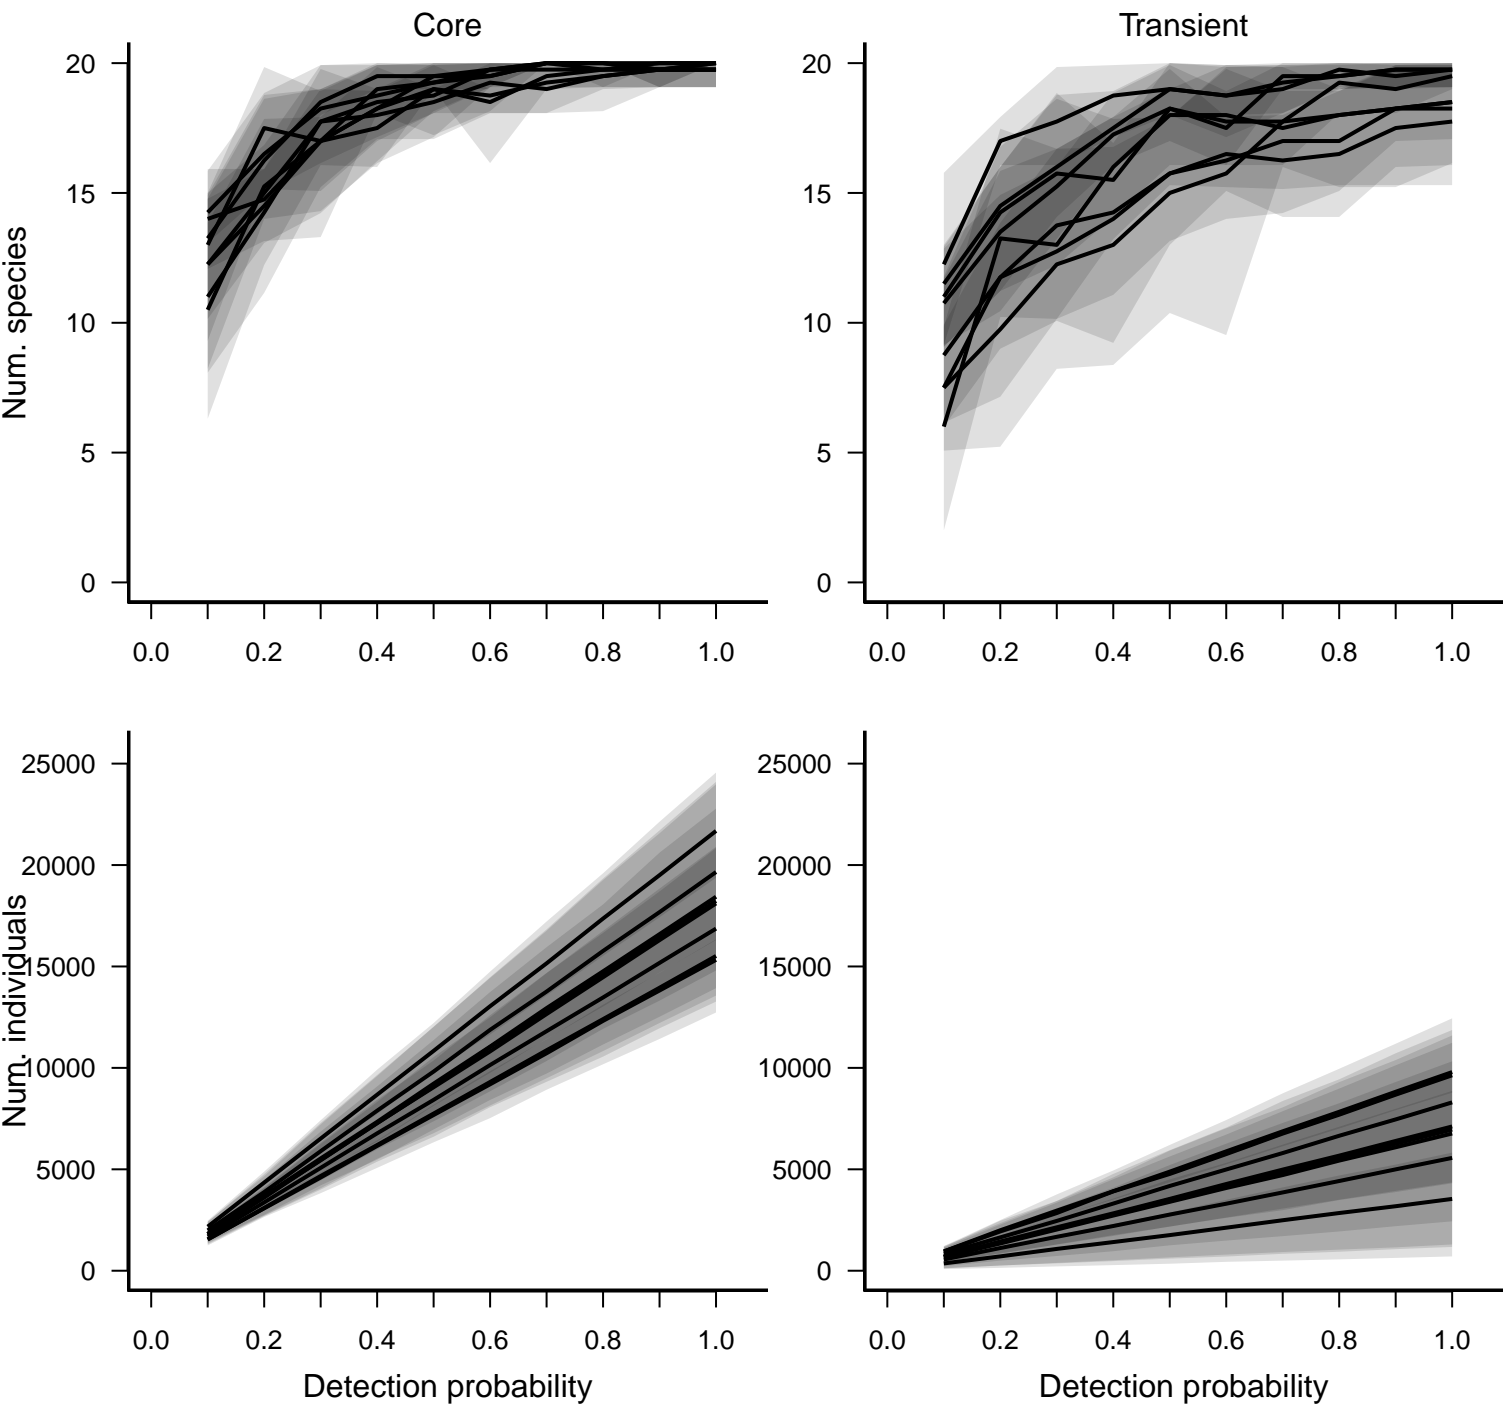

Temporal occupancy-based categories: spatial grain = 8 x 8

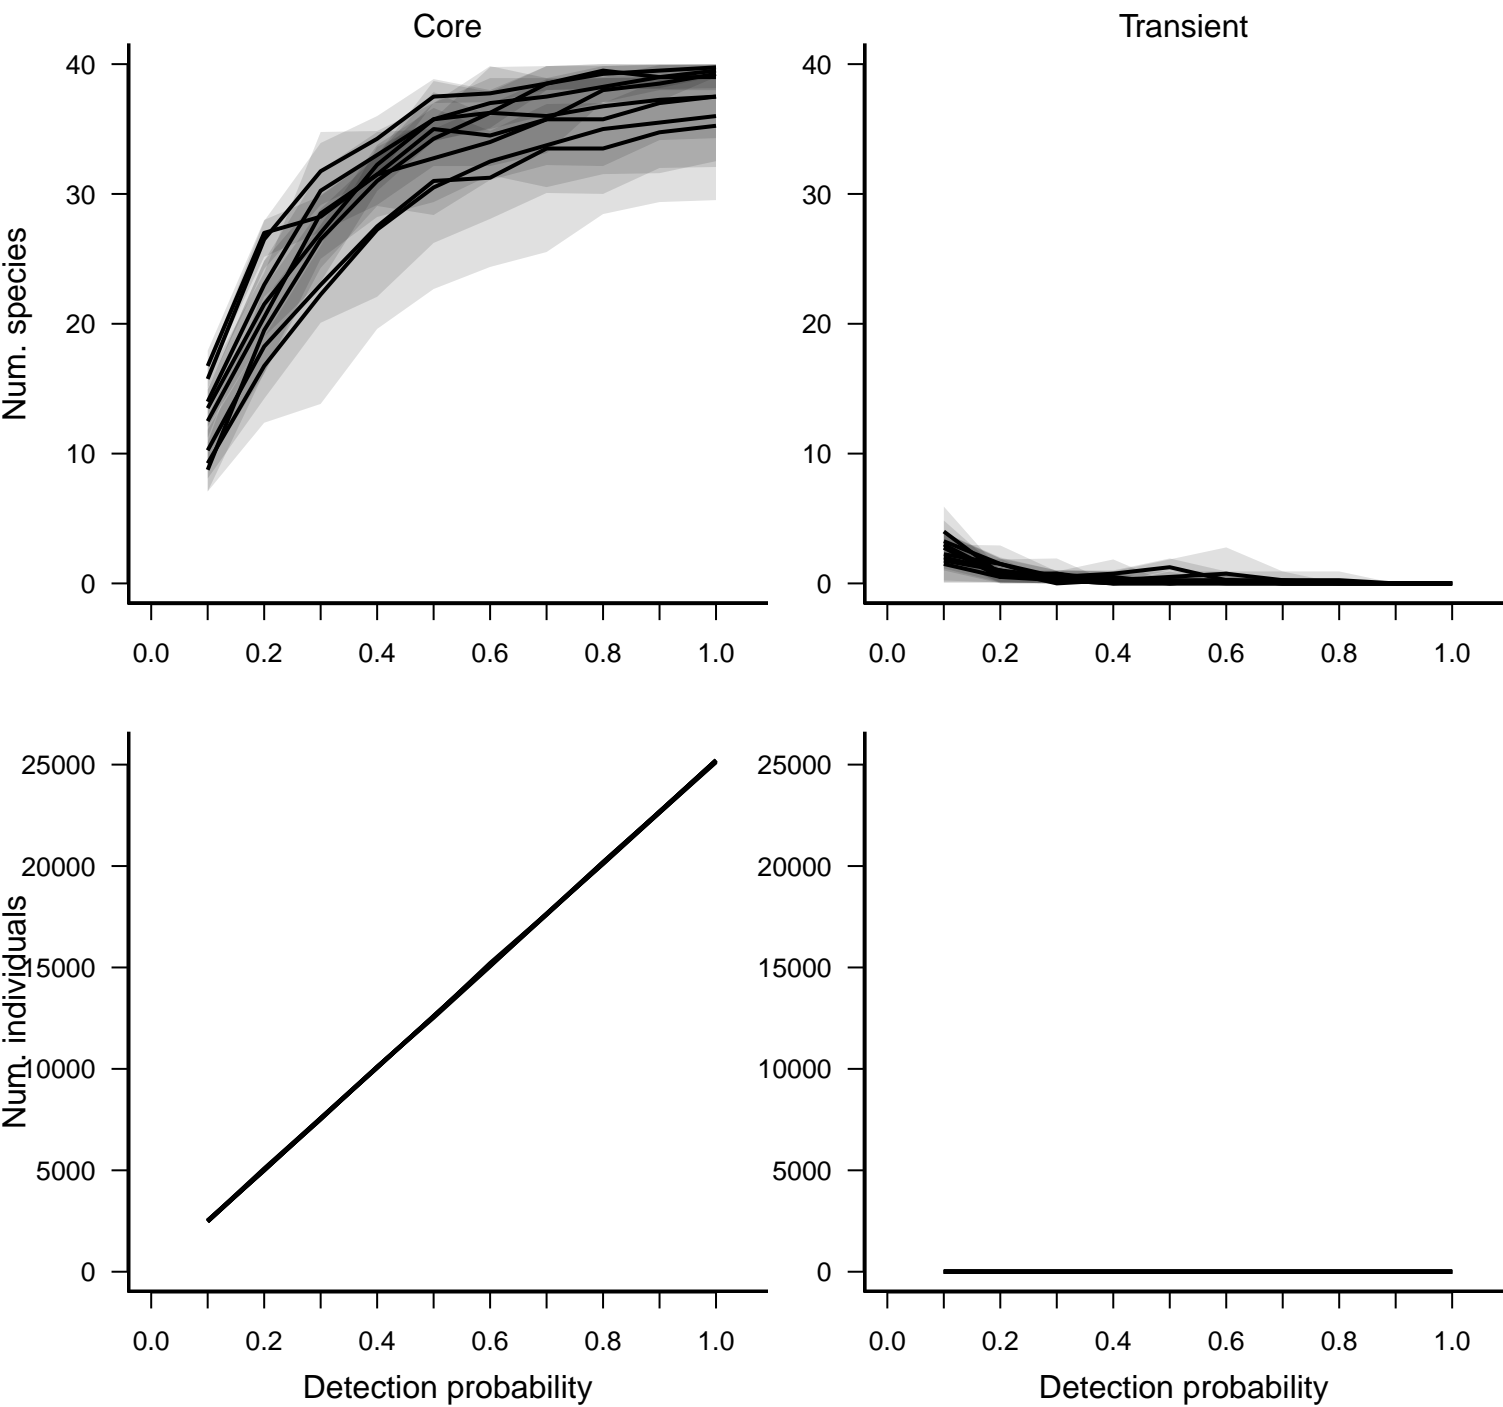

Cross-classification: spatial grain = 8 x 8

Birth rate-based categories: spatial grain = 16 x 16

Temporal occupancy-based categories: spatial grain = 16 x 16

Cross-classification: spatial grain = 16 x 16
